

New England Digital Media User Group

Date: September 13th 2008

In partnership with Microsoft and Hewlett-Packard

Time: 8:00am - 6:00pm

The Connected Home - A Full Day of Free Training

A full day of FREE training geared toward novice computer users!

Do you know what your computer can do?

Did you know that your computer can be a major component of your Home Theater System, Recording and playing back Over-The-Air Digital TV (For Free!) and Cable/Satellite TV?

That you can Store and View your Digital Photos, Home Digital Movies and Digital Music right on your Television?

Did you know you can have a Windows Home Server that can backup all the computers on your home network automatically, saving all your important documents and your precious Digital Photos from hardware failures?

Want to learn how to build and secure your own home network?

This is the Training for you!

**Presented by
The New England Digital Media User Group
www.nedmug.com**
